Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not show or suggest the present method for treating a product which contains cellular material of eukaryotic or prokaryotic origin as claimed in claim 11; the method comprises the steps of bringing the product in a treatment device comprising two electrodes connected to an electronic circuit, and creating an electrical field pulse in the product, wherein a rise time or leading edge of each imposed voltage pulse is shorter than an associated electronic relaxation time of the product under treatment, and wherein the electronic relaxation time being defined by the ratio of electrical conductivity and permittivity of the product.
